

Alex Rivera

Senior Machine Learning & Generative AI Engineer

alex.rivera@example.com | (415) 555-0192 | San Francisco, CA | linkedin.com/in/alex-rivera-demo

PROFESSIONAL SUMMARY

Senior Machine Learning Engineer with 5+ years of experience designing, deploying, and optimizing end-to-end AI applications.

TECHNICAL SKILLS

- Languages: Python, SQL, C++, TypeScript
- ML & GenAI: PyTorch, TensorFlow, Scikit-Learn, LangChain, FAISS, Transformers, RAG, Prompt Engineering
- Cloud & Data: AWS, Docker, Kubernetes, PostgreSQL, Redis, Pandas, NumPy
- Developer Tools: Git, Linux, CI/CD, FastAPI, Streamlit

PROFESSIONAL EXPERIENCE

Nexus AI Systems | Senior Generative AI Engineer | 2022 - Present

- Architected enterprise Retrieval-Augmented Generation (RAG) pipeline leveraging FAISS vector search and Gemini models.
- Deployed high-throughput FastAPI inference microservices processing over 1.5 million queries daily with sub-150ms p99 latency.
- Containerized model inference pipelines using Docker and Kubernetes on AWS ECS, implementing autoscaling based on GPU utilization.

Apex Analytics Corp | Machine Learning Engineer | 2019 - 2022

- Developed customer churn and risk prediction models in Scikit-Learn and PyTorch, increasing predictive accuracy by 18%.
- Optimized database queries and ETL pipelines in PostgreSQL and Pandas, accelerating weekly analytics training cycles by 30%.
- Created interactive internal monitoring dashboards in Streamlit to visualize model drift and prediction confidence intervals.

EDUCATION

University of California, Berkeley

Bachelor of Science in Computer Science | 2015 - 2019

NOTABLE PROJECTS

SmartHire RAG Career Engine

- Built open-source career matching portal combining FAISS semantic vector search with Gemini structured parsing.
- Implemented Human-in-the-Loop approval workflows and guardrail protection against prompt injection attacks.
